Studies have shown that dancing is a "mood changer" and induces feelings of happiness! Life has not been easy since COVID-19 showed up on our doorsteps. The uncertainty and upheaval of life, as we know it, has been jolted and changed. Yet, we are hopeful, as we move forward. Feeling a sense of wellbeing and happiness, may be absent at times and it's something we, the very youngest to the seniors, have an incredible need for! For me, dance has always been a mood changer and teaching dance, has most definitely been the icing on my cake! Perhaps that's the reason for expressions such as, "Dance your blues away"! I think we would all do well and perhaps have our spirits lifted with a bit of dancing!

Erin McParland-McCannis is certified by "Dance Educators of America" and has been teaching and sharing her love of dance in the Dover-Sherborn and surrounding communities for more than 30 years! Erin's enthusiasm and warmth for her students is very special and ever present. Classes are fun and non-competitive and students learn the art of dance at their own pace in a nurturing and personalized environment. Some students take their love of dance to the Broadway stage and others to a dance career. Most bring it with them in their hearts throughout a lifetime!
